

Please add the following claims:

- Amendments  
filed on  
7/6/05
- Claim has  
been removed
- 20
16. (New) The method of Claim 1 wherein said search query comprises a customized form.
17. (New) The method of Claim 1 wherein said remote agents gather the content responsive to the query in accordance with rules and standards generated by a controller software.
18. (New) The method of Claim 17 wherein said remote agents are autonomous.
19. (New) The method of Claim 17 wherein said remote agents are remotely accessible by said aggregator.
- 20 19. (New) The method of Claim 19 wherein said remote agents are installed on said distinct networks.
- 21 20. (New) The method of Claim 1, wherein said processing further comprises the aggregator analyzing said results and culling information not relevant to the search query posed.
- 22 21. (New) The method of Claim 1, wherein said processing further comprises the aggregator categorizing said search results in a format specified by said client.
- 23 22. (New) The method of Claim 1, wherein said aggregator transmits the processed information to the client in a customized response form.
- 24 23. (New) The method of Claim 10, wherein said plurality of networks comprise learning resource provider and content provider computer networks.
- 25 24. (New) The method of Claim 10, wherein said search results comprise formal and informal knowledge.
- 26 25. (New) The method of Claim 10, wherein said remote agents gather the content responsive to the query in accordance with rules and standards generated by a controller software.
- 27 26. (New) The method of Claim 10, wherein each of said remote agents include an autonomous controller software program.
- 02  
12/8/05.

2827. (New) The method of Claim 10, wherein each of said remote agents are remotely accessible by a controller software program installed on said aggregator
